### REPORT TRANSFER OF BOSTON CLUB

NEW YORK, Dec. 13.—The reported transfer of ownership of the Boston National league club was much discussed in the hotel corridors in advance of today's baseball meeting, but John P. Harris, who is representing the Boston club, denied reports that William Heppner Russell, of New York, had acquired control of 90 per cent of the club's stock.

Mr. Harris said Mr. Russell had an option to purchase majority control of the club, but had not exercised it. The Eastern league celebrated its sessions after raising the salary of the president from \$5,000 to \$7,500 a year, and authorizing President Barrow to open and maintain headquarters in New York city.

## LARGE AUDIENCE HEARS SCIENTIST RELIEF SOCIETY TO GIVE SOCIAL

The Ogdén crowd was completely filled by the large crowd which presented last evening to hear the address on Christian Science, delivered by Francis J. Fluno, C. S. D. Mr. Fluno is a member of the Christian Science board of lecturership of the First Church of Christ, Scientist, of Boston, Mass.

His lecture in this city under the auspices of the First Church of Christ, Scientist, of Ogdén. The lecturer is a venerable gentleman who has been long in the pastorate of the Christian Science church. His discourse was a comprehensive review of the doctrine.

Dr. Fluno said, in part: "Christian Science is the science of being. It is the law of life, truth and love understood and demonstrated. Christian Science cannot fail, any more than the science of numbers can fail. The eternal laws of life, truth and love having their foundation in the one God, can no more fail than their foundation principle, the eternal God, can fail. The science of being is as independent as the science of mathematics. Like the spirit of love, it seeks no reward and fears no punishment. Since it is the eternal fact of being, it can stand alone, being true, and its principle, truth, it asks no support from any one or anything. It is the same, whether thousands rally to its standards or seek to trail its banner in the dust. It is a living reality, and therefore, it cannot be taught. It will live through all the ages yet to come, as it has lived through all the ages that have already come.

"And because Christian Science is the eternal fact of being, it does not, therefore, teach eternal banishment from God, or good, but on the contrary, it teaches that all must come to truth at last. God is omnipotent, and being 'yesterday, today and forever' the same, His omnipotence, therefore, forever has been and ever will remain. Hence, 'no other power can be, no other power has ever been, no other power can ever be able to stay His mighty hand, or thwart Him in His purpose.'"

"Therefore, God and heaven are, and their opposites are not, and divine science is the angel that comes to day to lay hold on that old serpent which is the devil and Satan and will chain him and cast him into the bottomless pit (the great nowhere), and all his angels with him.

"Christian Scientists, being students of this divine science, and finding how scientifically true it is, naturally and necessarily, in a measure at least, grow to become one with it, to reflect it, to represent it and express it, in thought, in word and in deed.

"Christian Science is not mesmerism; mesmerism is the belief of minds many, that each individual has a mind of his own, that the stronger mind can influence and take unlawful control of the weaker mind, which, judging from appearance, and if the senses could be trusted, and appearances were reliable, this would be a correct conclusion that could be arrived at. But we thank God, through Jesus Christ, our Lord, that in the light of Christian Science, the Revelator, that mortal sense is found to be a non-reality. That the Bible and Science and Health corroborate the scriptures, also the grand and unsurpassed demonstrations of Jesus and Apostles, and the corroborative testimonies of healing through Christian Science, all teach and demonstrate that the One Mind has power over the carnal mind; that the mortal sense is false, and the Christ mind is true.

"Science and Health and the Bible, when rightly understood, disclose the fact that God is the only mind, and the so-called mortal mind is but the carnal mind that must be corrected by the divine mind. So that Christian Science, so far from being mesmerism, for, instead of teaching minds many, it teaches one mind, and that the mind of God, in whom no evil is, no sickness, sin or death, which mind must overcome and annihilate the mortal mind or negative mind, as darkness is swallowed up by light.

"And Christian Scientists, instead of being mesmerists, are finding their way out of mesmerism, out of the belief of minds many, into the belief of the one mind, God, where all so-called mortal minds are swallowed up and lost in the one divine mind, wherein dwelleth righteousness.

"Christian Science is the scientific knowledge of the law of life reduced to a system of facts, practical, not only in the physical healing of sickness and sin and all evil, but in the destruction of them off the face of the earth, that His kingdom come, and His will be done on earth as it is in heaven. And Christian Scientists are those who, to the extent that they understand this great truth, are practicing it upon themselves and others, who ask of them the same God's blessing. And hundreds are being healed every day, of sickness, as well as of sin, and all evil, and these, in their turn, are learning the great law of being, and how to apply it in their own case, and upon those, who in their turn shall come to them.

"No Reality in Sin. "Christian Science teaches there is no reality in sin; that God made all that was made, and all He made was good; that God did not make sin. In the Bible we read that God is of 'Purer eyes than to behold evil, and cannot look upon injustice.' The Master said: 'There is but one God, that is God, and Science and Health in its teachings corroborates these statements, and reveals God as the only God; and that He is only good, that is, He is not good and evil, for He is the one absolute good, in whom no evil is. Since no evil is in Him, therefore, no evil could emanate from Him, hence, He made no evil, and since He made no evil, and He made all that was made—therefore, evil never was made.

"Therefore, sin, sickness, pain and death, evil error and discord of all kinds, do not belong to God, nor to His creation, and are no part of the great fact of being, that the error and misunderstanding of mathematics, are a part of the science of numbers; and man and the universe, in his true spiritual sense, is found to be as sinless and perfect now, and as unchangeable in his sinlessness as the everlasting Father—the perfect, sinless, and unchangeable God Himself.

"Be ye, therefore, perfect, even as your Father which is in heaven is perfect."

ARIZONA POSSES SEARCHING HILLS FOR MURDERERS

BISPEE, Ariz., Dec. 13.—Poses are in the hills looking for Peter Rayla, better known as 'P to the Genesee,' and a man named Morone, who are alleged to have been the slayers of Parker Bowling and D. H. Faulk, in a fight in this city last night. Ernest Disher, a third victim of the stabbing, is in a critical condition.

The murderers, after the killing, walked calmly down town, where they entered a saloon and took a drink, then escaped to the hills. Two other Italians, arrested last night, will probably be released, as it is thought they are innocent. Bowling was stabbed three times in the back and Faulk eight times.

## AN ADVERTISMENT BY D. BECKER

Humanity, the Golden Mine.

The name of the ad is the key that unlocks millions of pocket books and allows the slackies to pour into the laps of those who advertise. A drop of water falling upon a stone leaves its impression there, and so it is with a name that is always before us from day to day wherever we go. Take Ivory Soap, Grape-Nuts, Gold Dust Twins, and many others that have been handed to us every day of our lives. They have made big fortunes for their owners because they taught the public to remember them.

Humanity is the golden mine that is worked by the man who knows how to advertise, and we are unconsciously memorizing the very thing the advertiser wants us to remember.
